

Amendment to the Specification

Please replace the paragraph beginning on page 5, line 24 with the following rewritten paragraph:

B1 --It is also possible to realize further power savings to switch to a green only monochrome image as disclosed in copending US Application No. 09/874,147 ~~_____ (EK docket 82,686)~~, filed concurrently by Siwinski. This switchover could be accomplished manually at the choice of the viewer, or automatically in response to the battery reaching some lower charge level. For the manual mode of switching, a separate battery saving switch can be provided on the apparatus that includes the display, or in apparatus having a keypad, a special combination of keystrokes can be employed to activate the power saving feature. A touch screen display may also be used to implement the battery saving mode switch. --
